# Fast Track Interop Process

Like to get things done fast? Not a problem with the Fast Track Interop Process.

Get up and running in no time with IntelePeer. You can test your new SIP trunk with our automated process, eliminating the need to coordinate schedules for a live session. Plus, you'll be able to get it all done in 2-3 business days! Here's how it works:

.

1) Order received

2) Trunk build

3) Confirmation email with test instructions

7) Port/order additional numbers

6) Process complete

4) Call 720-889-9513 for automated testing

Requirements for Fast Track Interop Process

In order to ensure success, please be sure you have all of these pieces in place:

✔ Have a switch address

✔ Have IP information (completed Solution Summary and Technical Order Form)

✔ Be ready to implement

✔ Be ready to accept billing

✔ Be a new IntelePeer customer or partner

IntelePeer.
