

Combat rising labor costs, staffing shortages, and increasing patient expectations with SmartAgent for DSOs, an AI-powered patient experience automation solution. Automate your *inbound* and *outbound* interactions through voice and digital agents – enhancing engagement, improving efficiency, and driving profitable growth.

### Instant impact

Designed for fast deployment with same-day turn up across locations

### Personalized experiences

Built to drive patient loyalty and satisfaction at every touchpoint

### Centralized control

Manage system-wide standards with site-level customization

*"IntelePeer's platform allowed us to quickly and easily deploy sophisticated patient engagement solutions that delivered immediate results."*

— Geoff Wayne, CEO Jefferson Dental & Orthodontics
