Microsoft Teams | IntelePeer®

# IntelePeer SmartCommunicator™
Create multichannel communications automation within MS Teams

SmartCommunicator takes communications automation to the next level within MS Teams

Activate SMS/MMS messages seamlessly through our in-app user interface, accessible across both desktop and mobile platforms. Our app also integrates with Outlook contacts, streamlining your communication process by enabling you to text and call contacts directly from within the app, eliminating the need to navigate between multiple platforms. We can also integrate with your CRM, enhancing the efficiency and effectiveness of your outreach efforts.
